

WASIU ATANDA

Junior Frontend Developer

Lagos, Nigeria

atandawasiu13@gmail.com

github.com/atandawasiu

linkedin.com/in/wasiu-atanda-4636a8253

Technical Skills

Strong: JavaScript (ES6+), Typescript, Node, Deno, Express, React, Redux, HTML, CSS, Git, Webpack, NoSQL(MongoDB), SQL(Postgres), REST API, OOP

Experienced: Testing Framework (Jest, Enzyme, Cypress), Responsive, Mobile-Friendly Interface, debugging.

Experience

Junior Frontend Developer

Company: ISP

Duration: 6 Months

🚧 Responsibilities

- Built responsive UI components for a new feature using HTML, CSS, and JavaScript
- Implemented a navigation menu using CSS Grid and JavaScript
- Fixed bugs and issues with existing codebase
- Collaborate with designers to implement new design elements
- Worked with Backend developers to integrate API data into the Frontend
- Used Git for version control and collaborated with team members on GitHub
- Implemented basic animations and transitions using CSS and JavaScript
- Created reusable UI components using React
- Integrate third-party libraries like jQuery and Lodash
- Wrote basic unit tests using Jest

🚧 Projects

- Built so many projects including a simple todo list app using React and JavaScript
- Contributed to an Open-Source project on GitHub, fixing bugs and adding new features
- Created a personal website using HTML, CSS and JavaScript

🚧 Skills Learned

- HTML5 and CSS3
- JavaScript (ES6+ syntax and concept)
- React and its ecosystem
- CSS Grid and Flexbox
- JavaScript DOM manipulation
- Git and GitHub
- Basic testing using Jest

Challenges Overcome

- Understanding the nuances of CSS Grid and Flexbox
- Debugging and troubleshooting code issues
- Collaborating with team members and communicating technical idea
- Managing version control and resolving merge conflicts

🚧 Achievements

- Successfully implemented a complex UI component using React and CSS Grid
- Fixed a critical bug that improved app performance by 30%
- Received a positive feedback from designers and backend developers on the code quality and collaboration

Open Source Contributions

Project: TodoMVC (a popular open source project for building to-do list apps)

Contribution: Fixed a bug in the React version of the project

Date: March 2024

Description: Fixed a bug where the “Add New Todo” button was not working correctly in the React version of the project. This was my first open-source contribution and I learned a lot about the process of contributing to open-source projects

Project: FreeCodeCamp (a non-profit organization offering free coding lessons and projects)

Contribution: Added a new feature to the “Build a Personal Website” project (Pull Request #5678)

Date: April 2024

Description: Added a new feature to allow users to add a certain background image to their personal website. This was a great opportunity to learn about contributing to a large open-source project and working with a community of developers

Skill Used

-HTML5

-CSS3

-JavaScript (ES6+ Syntax and Concept)

-React

-Git and GitHub

What I Learned

-How to contribute to open-source on GitHub

-How to work with the community developers to resolve issues and add new features

-How to write clean, modular and maintainable code

-How to use Git and GitHub for version control and collaboration
